My Vision Board

A goal setting printable for kids

- Vision board page with 6 goal areas
- Cut and glue word and picture tiles
- My Big Goal planner with a star tracker
- Color and black and white versions

How to use it

1. **Talk about it first.** Ask: what would make this a great year? Think about school, home, friends, reading, hobbies and being kind.
2. **Make the board.** Kids draw or glue a picture in each box and finish the sentence. The tiles page gives them words and pictures to color, cut and stick.
3. **Pick one big goal.** The goal planner turns the board into 3 small steps, and the star tracker shows progress over the weeks.
4. **Keep it visible.** Display boards on a wall, in a folder or at home, and check in on the stars once a week.

Talk it through: questions to get kids thinking

- What is something you want to learn this year?
- What would make you feel proud in June?
- Who would you like to help, and how?
- What book or kind of book do you want to read?
- What is one thing you want to get better at outside school?
- What could you do if a goal gets hard?

Printing: print on plain paper or card. The black and white pages are ink saver friendly and great for coloring. Works for new year, back to school or any fresh start. Best for grades 1 to 4.

On an iPad: open the PDF in Google Classroom or the Files app and write straight on the page with the markup pen.
